MODULAR SOLUTIONS

THE FUTURE OF GLASS.
SINCE 1665.

Saint-Gobain – Going beyond building spaces, for making the world a better home.

Saint-Gobain, a world leader in the habitat and construction markets, designs, manufactures and distributes high-performance, innovative building materials across the globe. Saint-Gobain's materials and solutions are designed for the well-being of each of us and the future of all.

They provide comfort, high performance and safety, meeting the challenges of sustainable construction, effective resource management and climate change.

SUSTAINABILITY

2050 NET ZERO CARBON

At Saint-Gobain, we are dedicated to minimizing our environmental footprint and strive for sustainability. Our commitments include a 20% reduction in CO2 emissions, a 50% decrease in non-recovered waste, an 80% reduction in industrial water emissions by 2025, and ultimately achieving net-zero emissions by 2050 in line with the 1.5°C scenarios. In alignment with our eco-friendly approach, our glass hardware solutions are designed to combine aesthetic appeal with our environmental objectives.

FINISHES

GLAZING POSSIBILITIES

STADIP SILENCE

A single pane of STADIP SILENCE can lessen the sound to 47 dB , depending on its thickness. Sound insulation values far exceeding 50 dB can be achieved in a double layer construction.

PRIVA-LITE

At the flick of Switch, changes from Translucent to Transparent.

GRADIENT FROSTED

Aesthetic Glazing that provides
both Privacy & Lighting

COLOUR LAMINATED

Laminated Glazing that is offered
in Multiple Colours.
